

*NHMRC's Table 1 contains 176 trials, 30 of which are N>150. As 2 trials compared homeopathy with both placebo and another treatment, they are listed in the table twice, making the 'total' entries 178 and 31 respectively.

NHMRC conclusion	Number of trials identified by NHMRC	Number of trials N>150 participants	Number of 'reliable trials' ('sufficient size AND quality')
	Total = 178*	Total = 31*	Total = 5
<i>"Homeopathy is not more effective than placebo for the treatment of these [13] health conditions":</i>			
Adenoid vegetation in children	2	0	0
Asthma	8	1	1
Anxiety or stress-related conditions	9	0	0
Diarrhoea in children – combined homeopathy tablet	1	1	1
Headache and migraine	4	0	0
Muscle soreness (delayed onset)	8	0	0
Labour (inducing or shortening)	2	0	0
Pain due to dental work	5	1	0
Pain due to orthopaedic surgery	3	0	0
Postoperative ileus	7	2	1
Premenstrual syndrome	5	0	0
Upper respiratory tract infections	3	2	1
Warts	3	1	0
<i>"There is no reliable evidence that homeopathy is more effective than placebo for the treatment of these [14] health conditions":</i>			
Allergic rhinitis	13	2	0
Attention deficit/hyperactivity disorder (ADHD) in children	4	0	0
Bruising	2	0	0
Chronic fatigue syndrome	3	0	0
Diarrhoea in children – individualised homeopathy	3	0	0
Fibromyalgia	3	0	0
Hot flushes in women who have had breast cancer	2	0	0
Human immunodeficiency virus (HIV) infection	2	0	0
Influenza-like illness	4	3	0
Rheumatoid arthritis	5	2	0
Sinusitis	3	2	0
Sleep disturbances or circadian rhythm disturbances	8	0	0
Stomatitis (inflammation of the mouth) due to chemotherapy	2	0	0
Ulcers	2	0	0
<i>"There is no reliable evidence on which to draw a conclusion about the effectiveness of homeopathy, compared with placebo, for the treatment of these [29] health conditions":</i>			
Acne vulgaris	1	0	0
Acute otitis media in children	1	0	0

Acute ankle sprain	1	0	0
Acute trauma in orthopaedic patients	1	0	0
Amoebiasis and giardiasis	1	0	0
Ankylosing spondylitis	1	0	0
Boils and pyoderma	1	0	0
Broca's aphasia in people who have had a stroke	1	0	0
Bronchitis	1	1	0
Cholera	1	0	0
Cough	1	0	0
Chronic polyarthritis	1	0	0
Dystocia (difficult labour)	1	0	0
Eczema	1	0	0
Heroin addiction	1	0	0
Knee joint haematoma (bruising)	1	0	0
Lower back pain	1	1	1
Nausea and vomiting associated with chemotherapy	1	0	0
Oral lichen planus	1	0	0
Osteoarthritis	1	0	0
Proctocolitis	1	0	0
Postoperative pain-agitation syndrome	1	0	0
Radiodermatitis in women with breast cancer	1	0	0
Seborrhoeic dermatitis	1	0	0
Suppression of lactation after childbirth in women who elect not to breastfeed	1	0	0
Stroke	1	0	0
Traumatic brain injury (mild)	1	0	0
Uraemic pruritis	1	0	0
Vein problems due to cannulas in people receiving chemotherapy	1	0	0
<i>"There is no reliable evidence that homeopathy is as effective as the other therapies for the treatment of these [8] health conditions":</i>			
Acute otitis media or otitis media with effusion in children	3	0	0
Allergic rhinitis	3	1	0
Anxiety or stress-related conditions	3	0	0
Depression	2	0	0
Eczema	2	0	0
Non-allergic rhinitis	4	3	0
Osteoarthritis	5	2	0
Upper respiratory tract infection	4	4	0
<i>"There is no reliable evidence on which to draw a conclusion about the effectiveness of homeopathy compared with other therapies for the treatment of these [7] health conditions":</i>			
Burns (second- and third-degree)	1	0	0
Fibromyalgia	1	0	0
Irritable bowel syndrome	1	0	0
Malaria	1	0	0
Proctocolitis	1	0	0
Recurrent vulvovaginal candidiasis	1	1	0
Rheumatoid arthritis	1	1	0
